REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest a detector to observe relative movement between a first and a second portion of said vibrationally isolated portion of the apparatus, and generating at least one movement signal representative thereof, and an actuator responsive to at least one control signal for exerting a force upon a portion of said vibrationally isolated portion of said apparatus, and a controller responsive to said at least one movement signal to generate said at least one control signal to reduce relative movement between said first and second portion in combination with all the other elements recited in independent claim 1.

The prior art of record does not disclose or suggest a device manufacturing method of detecting relative movement between at least a first and second portion of a vibrationally isolated portion of the apparatus comprising at least a portion of a projection system of the projection apparatus, and exerting a force upon a portion of said vibrationally isolated portion of the apparatus responsive to at least one control signal, and generating said at least one control signal responsive to said movement signal to reduce relative movement between said first and said second portion of said vibrationally isolated portion of the apparatus in combination with the other steps recited in independent claim 14.

Art Unit: 2851

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
